

## Next Time

## Barenaked Ladies

You can always get it right next time, next time  
You can always get it right next time, next time

You can count on me  
To mess it up  
You can count on me  
To let you down again  
And in time you'll see  
That I'm your only friend

You can always get it right next time, next time  
You can always get it right next time, next time

Comfort in community  
Obliterated  
Given opportunity I hesitated  
Even my humility's  
Humiliated

You can always get it right next time, next time  
You can always get it right next time, next time

When you die they make a list  
Of every love you never kissed  
Of each regret and each mistake  
Every choice you failed to make

You can always get it right next time, next time  
You can always get it right next time, next time

It's a shame I have to wait  
Until the ending  
Everything I've yet to break  
Is surely bending  
Every vow I ever take  
Is just pretending  
That this mess I make  
Is worth defending

You can always get it right next time, next time  
You can always get it right next time, next time
