

On The Lookout

Barenaked Ladies

Roll this one from the top

On the lookout
The wind stopped
We chose this spot
To begin

When we looked out
The waves crashed
Smashing our past
Moving fast
Nothing Lasts
Make it last

This all will pass
Just like us
Just like this spot
Don't miss this
We've only got one shot

Hold on this rock face
It's dried and cracked
But grab on
Don't wait long
Longing to
Look out for you

This all will pass
Just like us
Just like this spot
Don't miss this
We've only got one shot

On the lookout
On the lookout
On the lookout
On the lookout
