Snowman

Barenaked Ladies

Made of snow, I don't know How I fit in To and fro, people go I stand and grin Way to go, even though I can't begin Made of snow, I don't know How I fit in

Ever cold, love untold I don't belong Have and hold, so untold I think they're wrong Heart of gold, grownin' old Just like the song Ever cold, love untold I don't belong

Button eyes, lullabys, I melt away Criticized, compromised White turns to grey I'm paralyzed, otherwise I'd leave today Button eyes, lullabys, I melt away

Made of snow, I don't know How I fit in Ever cold, love untold I don't fit in Button eyes, lullabys, I don't fit in Made of snow, I don't know How I fit in
