

# Keep Smiling

## Bars and Melody

Keep smiling keep smiling and we'll see what tomorrow brings  
keep smiling keep smiling and be thankful for the little things

The sun is shining in the morning I get out bed  
instead of being negative and thank the lord i aint dead  
cuz i can do what i want and i can travel the world  
and just maybe and while I'm doing it I might meet a girl  
I live my life on a stage with a pen and a page  
I follow all my dreams and I wouldn't have to care about a wage  
but if it doesnt work out i keep a smile on my face  
and ill be thankful for the fact that I got food on my plate

Keep smiling keep smiling and we'll see what tomorrow brings  
keep smiling keep smiling and be thankful for the little things

cuz we wont be around forever so come on all lets join in toget  
her

keep smiling keep smiling and just remember all the good old da  
ys

I live everyday as it comes I breath the air through my lungs  
I spent my pocket money then play the ps with my chums  
if I didn't want the melody then forget about reality  
id make a hit and id give all my earnings to a charity  
people would be glad for me I would help out all my family  
and depending on my mood weather I would change pethetic fallac  
y  
playing footbal in the streets like my dad used to tell  
back when everything seemed to run so well

Keep smiling keep smiling and we'll see what tomorrow brings  
keep smiling keep smiling and be thankful for the little things

Cuz we wont be around forever so come on all lets join in toget  
her

keep smiling keep smiling and just remember all the good old da  
ys

were back to back you know its up to you  
its amazing what a single friendly smile can do  
never under estemate yourself or any others  
cuz deep down were connected like sisters and brother

Keep smiling keep smiling and we'll see what tomorrow brings  
keep smiling keep smiling and be thankful for the little things  
cuz we wont be around forever so come on all lets join in toget  
her

keep smiling keep smiling and just remember all the good old da  
ys
