

Speed Of The Wind

Be Bop Deluxe

If you see me
If you see me smiling
It's no sin
It's just the speed of the wind

If you want me
If you want me laughing
Let me sing
It's just the speed of the wind
It's just the speed of the wind
It's just the speed of the wind

If you hear
If you hear the ringing bells
Chimes for them
It's just the speed of the wind

If you fear
If your fear your secret tell
Just walk right in
It's just the speed of the wind
It's just the speed of the wind
It's just the speed of the wind

Hey, don't put out your lights
There's too much shadow in your room tonight
It's time that you begin
It's just the stlye of our tragic wings
The room is the safest place
They say the nights are made of mist
See what the full night brings
Ascending ascending ascending
Ascending ascending ascending
Ascending ascending ascending
Ascending with the speed of the wind
With the speed of the wind
With the speed of the wind

If you see me
If you see me smiling
It's no sin
It's just the speed of the wind

If you want me
If you want me laughing
Let me sing
It's just the speed of the wind
It's just the speed of the wind
It's just the speed of the wind

If you hear
If you hear the ringing bells
It's chimes for them
It's just the speed of the wind

If you fear
If your fear your right to tell

Just walk right in
It's just the speed of the wind
It's just the speed of the wind
It's just the speed of the wind
It's just the speed of the wind
It's just the speed of the wind
Just the speed of the wind
