

# Still Cruisin'

Beach Boys

Come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose  
So, come on

Hey, baby, come on  
Come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose

Baby, come on  
Now get yourself in gear  
Oh, baby, come on  
Still cruising  
After all of these years

Hey, girl, let's go for a spin  
Hop in my hot rod and do it again  
You've got a greenhouse effect on me  
I know a secret spot  
Paradise by the sea

We'll find a place to park  
That's kinda cool after dark

We'll take a trip on up to the lake  
Down by the river where we  
Can make out on the island  
Wake up on the cape  
Punch up yor favorite staion  
Toss in your favorite tape

When we go cruising  
Well, everything is all right  
Come on, let's cruise  
You got nothing to lose  
Baby, when we go cruising now

Baby, put your top down  
Parade around downtown  
People trying to cool down  
Party all summer long

Come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose

Baby, come on  
Now get yourself in gear  
Baby baby come on  
Still cruising after  
All of these years

Everybody got a favorite spot  
Where they like to come a lot

When we go cruising  
Well, everything is all right

Come on, let's cruise  
You got nothing to lose  
Baby, when we go crusing now

People dancing in the sand  
Rocking to a reggae band  
Lovers walking hand in hand  
Party all summer long

Come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose

Baby, come on  
Now get yourself in gear  
Baby, baby, come on  
Still cruising after  
All of these years

Come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose

Baby come on  
Now get yourself in gear  
Baby, baby, come on  
Still cruising after  
All of these years

Come on, let's cruise  
You got nothing to lose  
So, come on, let's cruise  
You got nothing to lose

Baby, come on...
