## Lessons

## **Beach Fossils**

Always forget who I am Can't say I try and understand And when I try it out with you Now I'm okay if you are too

We can only try to stay alive What are you to do at twenty-five?

And when they ask all the time Say I'm doing just fine Close your eyes and tell me how you feel Can you feel the truth and is it real?

We can only try to stay alive What are you to do at twenty-five?
