

Mietzi's Song

Beatsteaks

You showed me colours I 'd never seen there was so much we used
to share you took me places where I'd never been I close my ey
es again and think of you I hear your voice with every passing
day I see my sister's laughing face I think about the things yo
u used to say I close my eyes again and think of you I see myse
lf in you in all those little things you do took you in bed at
night knowin' that everything's alright time slips away so fast
sunny skies get overcast I know I can't be there beside you I
can't be there to guide you I can't be there to hold you now.
