

# We Have to Figure It Out Tonight

Beatsteaks

Break it up before you break down  
i'm not happy  
whatever that means  
i can't let you go  
i build my world around you  
what do you think about me and you  
yell at me  
yell at me  
c'mon say something  
is the passion dead or is it coming back  
i can't let you go  
i build my world around you  
what do you think about me and you  
we have to figure it out tonight
