## **Can't Live Without You**

## **Bebo Norman**

You found me here I'm barely breathing You picked me up But I'm still wanting more

You're the ocean deep I'm in up to my knees Wanting desperately to drown

You're the one bright part Of my languid heart You're the love I cannot live without I cannot live without

Please hold me close I can't stop shaking It's not for fear My walls are breaking down

You're the ocean deep I'm in up to my knees Wanting desperately to drown

You're the one bright part Of my languid heart You're the love I cannot live without I can't live without I can't live without You I can't live without You And I cannot live without You, oh

Can You hold on? Can You hold on? Can You hold on to me? Because You hold everything, yeah

You're the ocean deep I'm in up to my knees Wanting desperately to drown

You're the one bright part Of my languid heart You're the love I cannot live without I can't live without You I can't live without You
