Tell me where you want me to go
if I'm gone then I'll get there soon
tell me what you want me to be
if I've been there split in two
tell me what you want me to say
then I'll put my tongue away

Tell me what you want me to see with my eyes so grizzly gray

You're insane got no name the lion's tame it's all the same got no brain the lion's tame

Tell me where you want me to go if I'm gone then I'll get there soon tell me what you want me to be if I've been there split in two

You're insane got no name the lion's tame it's all the same got no brain lion's tame
