Novacane

Becky G

Jou-jou, jou-jou

Here to make a mixtape
I'll do it
Labels say give one more take
Influence
All the young singers
All the new rappers
It's the first chapter,
Welcome
Open up your textbook,
Page 50,
I can see the future,
I made history
Started with the guitare
Singing in the kitchen
Mommie yelling at me,
I told her just listen

Was in trouble
So i had to make a smile
Cuz i accidently,
Broke my new laptop like wooow,
Big dummy
She was using curse words,
And i can't repeat 'em
But that was what she first heard,
Started believing
She was looking at me
Anger went to happy
Perfect

That's what my music did,
You can never ruin it
Put my life on the pages
Is why i'm doing it
I had to make a song for you
And then my show is sing along with you
The music is,
Is what i need everyday
So let this song fade away,
When life is getting in the way
Noo, noo
Novacane ooooh
Novacane ooh baby
Novacane all the music is my
Novacane ooh baby

My heart's in music
So i'm never dying
Doesn't matter if i barely
Stop trying
Taught myself to sing,
Sing along with brandy's
Studied every wrong,
Cuz i'm trynna win a grammy
I'm getting better

But i always stay humble
And daddy say
Pick it up if u fumble
Rapping's in my blood
I've been doing this forever
Only been around
About a decade
WHATEVER
Age doesn't matter
Neither do the spotlights
I was made for this game
No stoplights
Keep going even if the race's done
I'm writing song till i finally place one
They take the money send my family on vacation
I ain't leaving the whole world is waiting
This is just a sample,
Album coming soon seen in the city,
Make some room

That's what my music did,
You can never ruin it
Put my life on the pages
Is why i'm doing it
I had to make a song for you
And then my show is sing along with you
The music is,
That what i need everyday
So let this song fade away,
When life is getting in the way
Noo, noo
Novacane oooh
Novacane ooh baby
Novacane all the music is my
Novacane oooh baby
 (novacane oooh
novacane ooh baby
novacane all the music is my
novacane oooh baby)
