

## Faithless

### Before the Dawn

These ways of self deception  
Underneath the living shield  
We born and erase  
Our sins to be forgiven  
The nature we deny  
Now blind leads the blind

Believe in me  
And my justified confession  
Of the 7 deadly sins  
I won't bleed from my palms  
Or see the statues bleed  
No faith left in me

This law without exception  
Is written to the core  
Words of violence feed the war  
Countdown to the judgement  
We have all a cause  
And saviour from the fall
