

The Bitter End

Before the Dawn

Since we're feeling so anesthetised
In our comfort zone
Reminds me of the second time
That I followed you home

We're running out of alibi's
On the second of May
Reminds me of the summer time
On this winter day

See you at the bitter end
See you at the bitter end

Every step we take that's synchronized
Every broken bone
Reminds me of the second time
That I followed you home

You shower me with lullabies
As you're walking away
Reminds me that it's killing time
On this fateful day

See you at the bitter end
See you at the bitter end
See you at the bitter end
See you at the bitter end

From the time we intercepted
Feels a lot like suicide
Slow and sad, going sadder
Arise a sitting mine
See you at the bitter end

I love to see you run around
And I wanna see you now
Wannabees, arms wide out
See you at the bitter end

Let us reach inside
Grab the gentleness inside
Then I cried
Six months time
See this trap of madness
Prepare the end
See you at the bitter end
