Blackest ov the Black

Behemoth

From beyond all paths ov man I drew my rules
Infamous among gods and low I did fall
And the earth hath cried aloud
Hark! For enraged winds and storms now awaken
Now see me naked, yet draped in flames
My pent fury to unleash upon men

Ov khaos I am, the disobediant one Depraved son who hath dwellt in nothingness Upon the ninth I fell, from grace up above To taste this life ov sin, to give birth to the "I"

I didst create demigods, strong in will and deed That they may stand proud and call out thy names How dare thou cross the paths ov mine And leave my fallen sons behind Oh, I shall feast in Gutter, as king ov nothing I shall feed on thee, the Mightiest One Behold! For I am Him! Life giving flower that belongst to the dawn

Hear...
Feel...
Pray...
Kneel...

No holiness rules over my freedom No commands from above I obey I seek the ruin, I shake the worlds Behold! I am blackest ov the black

Ov khaos I am, the disobediant one
Depraved son who hath dwellt in nothingness
Upon the ninth I fell, from grace up above
To taste this life ov sin, to give birth to the "I"
