

Sugar Daddy

Bellamy Brothers

What you need is a sugar daddy
Diamond rings and a brand new caddy
Little things to help a girl make it through
What you need are satin pillows
Rivers flowin' down like willows
What you need is me to love you.

You are the kind of a woman
That likes to be on her own
Except for those times you need a man all night long
You like the finer things
All my money can buy
I like the way your body sings
I love the fire in your eyes.

What you need is a sugar daddy
Diamond rings and a brand new caddy
Little things to help a girl make it through
What you need are satin pillows
Rivers flowin' down like willows
What you need is me to love you.

We could be a secret
Our own private affair
I would give the world to you
Just so you'd know that I care
If friends should find out
If they try to frown
I'll put your pedestal up so high
They wont dare to look down.

What you need is a sugar daddy
Diamond rings and a brand new caddy
Little things to help a girl make it through
What you need are satin pillows
Rivers flowin' down like willows
What you need is me to love you,

What you need is me to love you.
