

# Frowne Song (Feeble Anthem)

Ben Folds

Why do we frown?  
Is it something within us  
Or in the world at large?  
Maybe it's both, y'all

Sadness deep inside  
Something we can't hide  
We yearn for the past  
But it's not there

And it makes me frown  
Yeah, it makes me frown

You look at the news  
Always giving me the blues  
War, death and chaos  
All around me now

The media's controlled  
People do just what they're told  
Just wanna stand up and yell  
Is anybody out there?

'Cause it makes me frown  
Yeah, it makes me frown

It's hard to find hope  
But maybe we can learn to cope  
By listening to one another  
It's a trust thing

'Cause I know that you have feared  
'Cause I know the end is near  
But just lend an ear  
And we can make it happen

'Cause it makes me frown  
Makes everybody frown

Oh, I know it can get hard  
When you look out your backyard  
See the ozone falling  
Apart before you

And recycling's a bitch  
I've got just one wish  
That his children won't grow up  
In a freaking trash can

A piano's all I got  
And I know that ain't a lot  
Music has the power  
To change the future

So what do you think  
'Bout my message of hope?  
Better get with the program

Before it's too late, y'all

So if you wanna start right now  
You better take that fucking frown  
Better turn it upside down

Just give in to love  
Yeah, give in to love  
Give it up for love  
Amen to love

It's gotta be love  
Or it'll make you frown  
Ah, it makes us frown  
Ah, it makes me frown  
'Cause it makes me frown
