

# I Need You Back

Ben Kweller

Take me back when you think that it's good.  
It feels worse than they said it would.  
You're gone but not forever.  
When I know I'm never wanted  
I tuck away in my turtle shell.  
I've stood on this hex forever.

I need you back, I need you have,  
to take away all of my pain and then my fear.

Hey! I need you back.

Like a ghost on his darkest visit,  
you got my soul, now baby why is it  
gone gone gone? Take it from me.  
You are free if you can sleep at night,  
you really must be hard if you're feeling alright.  
Hey hey hey, we're way uptown, we gotta turn around.

I need you back, I need you here,  
to take away all of my pain and then my fear.

Hey! I need you back.

I need you back, I need you here,  
to take away all of my pain and then my fear.

Hey! I need you back.  
(I'm so lost without you.)
