

# All Fall Down

Ben Moody

There's just too much I have in this heart  
To say I'm sorry for  
More than I can remember

I'm scared to touch  
Anything I love  
Afraid that I'll only leave them in pieces

In time  
We tend to find  
A place so far from home

Chorus:  
We all fall down  
Yes, we all fall down  
We all fall down  
In the end

There's little now  
In this empty room to believe in  
And so little time

Is it worth the life  
Not another med who does not agree  
Just to prove you're right

In time  
We tend to find  
A place so far away from home

Chorus

In time  
We tend to find  
A place so far from home

Chorus

Falling into pieces (under skies of gray)  
Life falls underneath us (time is washed away)  
Falling into pieces (under skies of gray)  
Life falls underneath us (time is washed away)
