

# This Time

Bertine Zetlitz

So you told me I was changing  
Played your darkest card  
Let it slip too far  
Said my love was too demanding

Then you told me we were drowning  
Deeply lost at sea  
You were blaming me  
Yeah you told me we were drowning, drowning

The higher we climb  
The harder we fall  
Guess you didn't want me after all  
So close to the sun  
The dangerous fun

This time

The higher we climb  
The further we stray  
Guess you didn't want me anyway  
The higher we climb  
The harder we play

This time

Then you asked me to stop shaking  
Said I made it hard  
You'd might fall apart  
So I asked you to stop faking

Yeah you told me I was slipping  
Way beyond repair  
Guess you took me there  
Wish I knew that I was tripping, slipping

The higher we climb  
The harder we fall  
Guess you didn't want me after all  
So close to the sun  
The dangerous fun

This time

The higher we climb  
The further we stray  
Guess you didn't want me anyway  
The higher we climb  
The harder we play

This time

The higher we climb  
The harder we fall  
Guess you didn't want me after all  
So close to the sun  
The dangerous fun

This time

The higher we climb  
The further we stray  
Guess you didn't want me anyway  
The higher we climb  
The harder we play

This time
