

Demon of Destruction (Agares)

Besatt

In Times, when Sun was a young son of galaxy
White haired angel from second circle of virtues choir
He was obtained by missions and knowledge about future
events
And was teaching a magic, knowledge and wisdom from
around the world

For that he was exiled and cursed
For that he is lost and forgotten

Imprisoned by Salomon in huge brass pot
Put to the bottom of deep lake with wiliness set himself
free
As a prince of hells he orders a thirty one legions of
ghosts
He is straight under the Lucifer's dominion

He stands on his fist and holds a great goshawk
Who, as a scout, can see everything
Can order a deserters on a battlefield
Whose attack shatters the enemies

He destroys a nowadays, spiritual dignities
Orders a destructive earthquakes
