

# Heaven Look Down

Beth Hart

Hell is on the TV  
The world I know is screaming  
What a way to cut me down  
Everything is shaking  
No give and only taking  
If I could only kill that sound

If there is anyone still up there  
Won't you take a good look around  
Please heaven look down

She will never go to school today  
Or know the home or know the way  
Doesn't she deserve a chance  
Her daddy can't keep from drinking  
His heart had drowned and it's sinking  
Something come and save that man

If there is anyone still up there  
Won't you take a good look around  
When will heaven look down

And don't don't don't don't leave  
And don't don't don't don't leave  
I'm begging you God please  
Down on broken knees  
If you can hear me now  
Take a good look around  
Then heaven look down

And I don't really know the way out  
And I don't think that I can take it anymore

Hell is on the tv  
The world I know is screaming  
What a way to cut me down

And don't don't don't don't leave  
And don't don't don't don't leave  
I'm begging you God please  
Don't leave don't leave  
Don't don't don't don't leave  
I'm begging you God please  
Down on broken knees  
If you can hear me now  
Take a good look around  
And now take a good look around  
And heaven look down
