

# I Miss You

Beverley Craven

Here in the silence I wait  
There's nothing else I can do  
It feels like my heart's gonna break  
And all I can think of is you  
And how my aching arms long to hold you  
And show you how much I care  
But I'm counting the hours without you  
And I don't know how much I can bear

'Cos I miss you more than words can say  
And I need you here in my life always  
I miss you and i'll always be  
Waiting here for you 'till you're back with me

You found a place in my heart  
From the first moment I saw you  
You are my light in the dark  
And I would do anything for you  
'Cos you're everything I've ever wished for  
The answer to all of my dreams  
And I want you back home is here with me

I miss you more than words can say  
And I need you here in my life always  
I miss you and I'll always be  
Waiting here for you 'till you're back with me

Yes I would be right there beside you  
If I only knew where you are  
'Cos it feels like I'm dying without you  
My whole world falling apart

I miss you more than words can say  
And I need you here in my life always  
I miss you and I'll always be  
Waiting here for you 'till you're back with me
