

# My Innocence

**Bif Naked**

I started with something you said  
It threw a curveball at my head  
Then came the ringing in my ears  
I filled the bathtub with my tears

Kiss my innocence goodbye  
My innocence just died  
Kiss my innocence goodbye  
My innocence just died

I won't be mourning the loss  
Not going to bear it like a cross  
Don't worry about me dear  
Thankyou I'll manage it from here

I can be a big girl  
And take it all in stride  
Swallowing my pride

Kiss my innocence goodbye  
My innocence just died  
Kiss my innocence goodbye  
My innocence just died

If what they tell me is true  
I should be waking up brand new  
And see the sun up in the sky  
I guess it must have been my time

To kiss my innocence goodbye  
Because my innocence just died  
You can kiss my innocence goodbye  
My innocence just died  
You can kiss my innocence goodbye  
You can kiss my innocence goodbye  
You can kiss my innocence goodbye  
You can kiss my innocence goodbye, goodbye goodbye
