

Spaceman

Bif Naked

Spaceman, oh spaceman!
Come rescue me from this!
Calling all aliens!
Come rescue me!

I see your face on television, almost every day
In magazines and on the big screen
Close yet far away

Remember that night at my window
When I waved at you?
I must have been only five, or so,
But I never forgot you.

I wonder why you choose those others
And you never come to call on me.
When I'm the one who's waiting for you
I really need you - please pick me!

Spaceman, oh spaceman!
Come rescue me from this!
Calling all aliens!
Come rescue me!

Ooh

Remember that night at my window
When I waved at you?
I must have been only five, or so,
But I never forgot you.

I wonder why you choose those others
And you never come to call on me
When I'm the one who's waiting for you
I really need you - please pick me!

Spaceman, oh spaceman!
Come rescue me from this!
Calling all aliens!
Come rescue me!

Ooh

Spaceman, oh spaceman!
Come rescue me from this!
Calling all aliens!
Come rescue me!
