```
Say! Nothing's better
You say nothing's better
Say! Nothing's better than the rest
Say! Hope you're better than the rest 'cause you talk a good game
Your sensations are suffering
I'll make your sensations suffer
Through these long sadistic highs
When you say the way I collide with you
I hope you see straight
Tonight, I'm in a rage
Tonight, I'm in a rage
Say! Nothing's better than the rest 'cause you talk a good game
My sensations are suffering
My sensations are suffering
Through these long sadistic nights
Did you see the way I
Collide, with you
I hope you see straight
Tonight, I'm in a rage
Tonight, I'm in a rage
Once again
You've missed the point
These strange explosions hit me
Like a fist of light
These strange explosions hit me
Like a fist of light
These strange explosions hit me
Like a fist of light
These strange explosions hit me
Like a fist of light
These strange explosions hit me
(Do you believe that I care?)
Like a fist of light
These strange explosions hit me
(Do you believe that I care?)
Like a fist of light
```

Like a fist of light

These strange explosions hit me (Do you believe that I care?)

These strange explosions hit me...
