

Travis Perkins

Biffy Clyro

What you wanted I can't give you, what you said was true now my
old friend

You can have it but I wanted everything

I can't remember now, it was September, now, I can't remember,
now

Travis Perkins, I can't remember my head float away...

Cause I love you and I needed you to stay

I can't remember now, I can't remember now, Travis Perkins now

Trust me once I think I needed everything to be that way

But I miss you all the same

And I can remember my head blown away

Cause I love you and I needed you to stay
