Radio

On the road making noise Rocking hard for all the girls and boys We got the groove we got the songs Our kinda music makes you sing along Well jump on up in your chair Everybody throw your hands in the air You're gonna scream until it hurts You know you're gonna get your dollar's worth well

Crank it up tonight When you hear us on your radio Oh oh, oh oh We'll take you for a ride Anywhere that you want to go Oh oh, oh oh Glad y'all could make it out to the big show One, two, three, four Hey, hey, here we go

A big city or a hick town Sooner or later we'll be coming around We like to party with the rowdy crowd We like our fiddles and our guitar's loud

(2x): Crank it up tonight When you hear us on your radio Oh oh, oh oh We'll take you for a ride Anywhere that you want to go Oh oh, oh oh Glad y'all could make it out to the big show One, two, three, four Hey, hey, here we go

Crank it up tonight When you hear us on your radio
