

There's a girl on channel 13  
I know she's gonna fall in love with me  
And I'm gonna win the lottery tomorrow  
Or the next day  
I drive a Mercedes Benz  
I've got a whole boat load of friends  
I'm gonna be on CMT someday

But in my real world  
Things don't always turn out so good  
Like you wish they would  
And in my real world  
I'm a little messed up and broke, don't you know

I got more money than George Strait  
I throw benjies out the window all day  
Just to see how far they fly, bye bye  
I get more girls than the president  
Mom and dad still pay the rent  
And I throw parties all night long

But in my real world  
Things don't always turn out so good  
Like you wish they would  
And in my real world  
I'm a little messed up and broke, don't you know

But in my real world  
Things don't always turn out so good  
Like you wish they would  
And in my real world  
I'm a little messed up and broke, don't you know

But in my real world  
Things don't always turn out so good  
Like you wish they would  
And in my real world  
I'm a little messed up and broke, don't you know
