

I Could Fall All Over And Over Again

Bill Miller

All of my life I've heard stories told
Of a treasure more precious than silver and gold
I thought that I'd known love a time or two
'Till I found a heart so loving and true

CHORUS:

I could fall all over and over again
Can you hear my heart saying it too
I could fall all over and over again
In love with a girl like you

You've been my by my side through the good and the tears
Your faith from the heart held on through the years
When things would get cloudy you'd help me to see
This love isn't blind we've got all that we need

(REPEAT CHORUS)
