You've Got It

You've got what I want You've got what I need One touch from you Brings me to my knees You've got what I want Baby can't you see That no-one else Will do for me

It's three am no matter How hard I try, I can't sleep I close my eyes into my Imagination you creep I can almost feel your touch Washing over me I'm wishing so hard That I believe

We had said things That we don't mean All the morning light's Brought reality

If I need you And you need me So don't stop Let's get it on Babe I miss you All night long

You've got what I want You've got what I need One touch from you Brings me to my knees You've got what I want Baby can't you see That no-one else Will do for me

Don't judge the past Babe it's only history And let's accept that you and I Were always meant to be Step back into my life Out of my fantasy I've got a situation remedy

I told another Lady tonight Surrender to the Feeling down inside

If I need you And you need me So don't stop Let's get it on Babe I miss you **Billie Piper**

All night long

You've got what I want You've got what I need One touch from you Brings me to my knees You've got what I want Baby can't you see That no-one else Will do for me

You've got what I want One touch from you You've got what I want Baby can't you see That no-one else Will do for me

If I need you And you need me So don't stop Let's get it on Babe I miss you All night long

You've got what I want You've got what I need One touch from you Brings me to my knees You've got what I want Baby can't you see That no-one else Will do for me
