

## Brotherly Love

Billy Dean

We shared the same last name and the same color eyes  
But we fought like tigers, over that old red bike  
I'm battin' first and you can't use my glove  
It wouldn't take long 'til push came to shove  
But, we looked out for each other with brotherly love

You hated girls 'til I had my first date  
I brought her home from the movies, you stayed up late  
Three on the couch, watchin' T.V.  
I was smilin' at her while you were laughin' at me  
But, I wouldn't trade it for nothin', brotherly love

There's a bond that brothers know and it gets stronger as they  
grow  
A love that time and miles can't come between we disagreed but  
in the end  
There will never be two closer friends  
And brotherly love is something we all need

They share the same last name and the same color eyes  
But they fight like tigers over one ol' red bike  
And lookin' at them reminds me of us  
They're gonna fight and they're gonna fuss  
But they got something special, it's brotherly love
