

# The Day You Came Along

Bing Crosby

My heart went leaping  
The day you came along  
Forgot my weeping  
The day you came along  
Before I knew it I hummed a little song  
The day you came along

I only drifted before you came along  
The fog was lifted  
Because you came along  
I sent the blackbirds right back where they belong  
The day you came along

Men have conquered nations  
Other men have set them free  
Pioneers across the sea  
You can turn the pages through the ages but for me  
Twas the most eventful day in history

My heart went leaping  
The day you came along  
Forgot my weeping  
The day you came along  
Before I knew it I hummed a little song  
The day you came along

I only drifted before you came along  
The fog was lifted  
Because you came along  
I sent the blackbirds right back where they belong  
The day you came along

Men have conquered nations  
Other men have set them free  
Pioneers across the sea  
You can turn the pages through the ages but for me  
Twas the most eventful day in history

^Two souls were mated  
The day you came along  
A world created  
The day you came along  
One glance convinced me  
I knew I wasn't wrong  
The day you came along

Two souls were mated  
The day you came along  
A world created  
The day you came along  
One glance convinced me  
I knew I wasn't wrong  
The day you came along

Love came this day  
The day you came along

Love came this day  
The day you came along
