

# Let Me Fly So Long

Binocular

Oh yes it's over now we can go back home  
oh I'm caught up in a cloud yes I've waited for it  
the sky has fallen to the earth you can't imagine what it's like  
the darkness is not in me anymore

Oh yes you said that you would and I believed you I believed you  
so let me fly so so long let me fly so long

Time was always on our side though we waited for it  
and I remembered how you cried when you crashed into the wall  
you couldn't take the chance and I couldn't break your fall  
the only time you cried

Oh yes you said that you would and I believed you I believed you  
so let me fly so so long let me fly so long  
so let me fly so so long let me fly so long

Oh yes you did what you said and I believed you I believed you  
so let me fly so so long let me fly so long  
so let me fly so so long let me fly so long
