

Get Myself Some

Black Buddafly

Yeah yeah yeah
(Love)
Llloooovvveee
Ooohhh ooohhh
(Love)
Ooohhh yeah

Oooh, boy you got me thinking
Things I wanna do to you
Last night I was seeing me and you
(Together making love)
Maybe I can take you out
Show you how a fly girl do
Tell you what I'm all about
(Make you see that I'm really feeling you)

Don't worry about it but I gotta speak my mind
And though you seem kinda cool
Too many guys I've been used by
So tonight I make up the rules

I pull you closer to me
And put your hands on my body
Kiss it so sweet that it will
So make you want it tonight now, now
Tell how I like it cause
I decided I'm the one in control
Tonight we'll do it my way
I say, you do
And when I'm done
I might give you
Just what you need but I am priority tonight
I'ma get myself some get my, get myself some (love)
Get myself some, get my, get myself some (love)
I'ma get myself some get my, get myself some (love)
Get myself some, I'ma get myself some (love)

They say men are demanding but,
Tonight we'll make the tables turn
Before you do be understanding and open to learn
(What I choose to get done)
I'll tell you what it's gonna be
Your just listening for nobly
Satisfaction guaranteed
At least for me.

I pull you closer to me
And put your hands on my body
Kiss it so sweet that it will
So make you want it tonight now, now
Tell how I like it cause
I decided I'm the one in control
Tonight we'll do it my way
I say, you do
And when I'm done
I might give you
Just what you need but I am priority tonight

I'ma get myself some get my, get myself some (love)
Get myself some, get my, get myself some (love)
I'ma get myself some get my, get myself some (love)
Get myself some, I'ma get myself some (love)

Ooohh tell me are you done with me?
(Are you down with me, with me, with me? yeah)
Ooohh boy tell will let me?
(Let take you and have you and be all I need)
Don't worry about it but I gotta speak my mind
And though you seem kinda cool
Too many guys I've been used by
So tonight I make up the rules

I pull you closer to me
And put your hands on my body
Kiss it so sweet that it will
So make you want it tonight now, now
Tell how I like it cause
I decided I'm the one in control
Tonight we'll do it my way
I say, you do
And when I'm done
I might give you
Just what you need but I am priority tonight
I'ma get myself some get my, get myself some (love)
Get myself some, get my, get myself some (love)
