Gather up the team, now we ready to go
Any minute we'll be all over your box and video
Niggas wanna stop me and my amigos
But we still roll all over your accapella goes
Leave it or this one here like meteor
Your mediocre scene, you feel the roar
Vibration that's headed for your store
For a change, not bragging about close to more
Instead brain fusion, I lace you up confusion
Relax and feel the groove it's the solution
We straight cruisin while the beat is still cruisin
You're here so clap your hand to what we're doin

All I want is to be free
You keep pushin up on me
All I want is to be free
You be you let I'll be me
Let me do what I feel inside
Won't get taken for a ride
Do just what I feel inside
Everything will be alright (5x)
