Black Sheep

Yeah, what? Yo, check this out
This is how it's done, how you do it?
You can't blow the spot, we already blew it
Show and AG and Black Sheep

I drop facts over tracks that go, f**k the red, white and blue
I'm with the black, black, black, you diss the brother Show
It makes me wonder, you put him to the test and watch
The brother molest the SP-1200, used to rhyme on calls
And acapella, now I'm doin' shows forever but I was always a good fella

You feel the wrath of the seven and a half in that ass
If you don't pass the microphone quick fast brothers been tryin'
To diss for years as long as I'm respected by my peers
And get cheers, who the f**k cares? Yeah, I'm weeded
But I'm undefeated, niggas is heated because I'm makin' a buck

Yup, I succeeded and ain't no time for no ego trippin' me
And my homies are all for one, one for all, so let's see who's flippin
And I'm still with the brother Show, whoever said that we broke up
They get the dick and you can tell it's so Showbiz
And AG and Black Sheep, we're in E.F.F.E.C.T.

You know how it goes, you know how we do it
You can't blow the spot 'cause we already blew it
You know how we do it, you know how it goes
It's me or my brother or me and my bros

You know how it goes, you know how we do it
You know how it sounds when a nigga gets into it
You know how we do it, you know how it goes
It's me and my brothers with the fabulous flows

Now who can it be, you wanna see who's flowin' next
From the boogie down Bronx with that nigga D, Showbiz and AG
My crew is mad deep, don't ever try to sleep or try to play me
You'll never be comp and your head will get stomped in
From f**kin' with the crew that's boogie down Bronx rompin'

Yo, the sugar dick is the man, and even the gap band
Made a song about how I'm 'outstandin', my favorite pastime
Is breakin' the bitch ass, niggas, that apparently mistakin' me
For a nigga that's butt but they all end up rip, so nigga

Pause, slow down, baby, back the f**k up, nigga, you must be crazy
The others tried to tell you, but you didn't heed the warning
Now you're gettin f**ked up from late night to early morning
You wanna be but you can't see me 'cause I'm in E.F.F.E.C.T.

You know how it goes, you know how we do it
You can't blow the spot 'cause we already blew it
You know how we do it, you know how it goes
It's me or my brother or me and my bros

You know how it goes, you know how we do it
You know how it sounds when a nigga gets into it
You know how we do it, you know how it goes

It's me and my brothers with the fabulous flows

Black Sheep, Black Sheep, where have you been, where?
Black Sheep, everything you do is cashmere
Yeah, I travel upward, 'cause I come from down south
Just when you try to counter, my hook's in your mouth
You can't stop me, I do what I wanna, I know, you wanna

So yo, come on, I got skills for dills, give chills to mills
My style of wild is makin piles of dollar bills so flex
And it's time to crack necks, punks f**k around
And get a chest full or Gore-Tex, you don't know me
From silicone titties, I keep shit on lock, Aki got keys in cities
I rock it, my style's your money in my pocket, you jock it

And play yourself like Pee Wee, when you knock it off the wall
Like a hanger, I drop my slang, a nigga never figured
To be in your shit like a booty banger, jingle-jigga, nigga
Pass the endo 'cause you f**kin' with me's
Like you stickin' your dick out the window

You know how it goes, you know how we do it
You can't blow the spot 'cause we already blew it
You know how we do it, you know how it goes
It's me or my brother or me and my bros

You know how it goes, you know how we do it
You know how it sounds when a nigga gets into it
You know how we do it, you know how it goes
It's me and my brothers with the fabulous flows
