

Drinkin' Champagne

Black Stone Cherry

Just like the leaves of autumn
I've fallen for you
You're like a black cloud woman
You can never be true

When winter turns to springtime
You'll leave me alone
You'll find a new love of brandy
Before summer's gone

Drinkin' champagne will never take
The taste of brandy away
She's like midnight
In the middle, the middle of your day

Emotions, they change like seasons
The years pass you by
You search your soul for reasons
She told you goodbye

Drinkin' champagne will never take
The taste of brandy away
She's like midnight
In the middle, the middle of your day

Drinkin' champagne will never take
The taste of brandy away
She's like midnight
In the middle, the middle of your day

Drinkin' champagne will never take
The taste of brandy away
