

In Our Dreams

Black Stone Cherry

If the world fell into the sea

My feet are wet today
My tears have soaked the pavement
My mind's runnin' again
And all my hopes are fadin'

If this is the way I don't wanna stay

If the world fell into the sea
Would you hold on and drown right here with me
If it's over I guess we're goin' under
Please help me, the only place that's safe
Is right here in our dreams

Inside this desperate time
You've been my one true haven
And I just realized
That's all that's left worth savin'

If this is the way I don't wanna stay

If the world fell into the sea
Would you hold on and drown right here with me
If it's over I guess we're goin' under
Please help me, the only place that's safe
Is right here in our dreams

Under the seams
The only place that's safe, is in our dreams
In our dreams

If the world fell into the sea
Would you hold on and drown right here with me
If it's over I guess we're goin' under
Please help me, the only place that's safe
Is right here in our dreams
In our dreams
