

# We'll Never Be Apart

Blackfield

You're walking on a cloud  
You held the perfect hat  
When I'm dragging on the fire  
But we'll never be apart

You're traveling around  
I'm bleeding on the ground  
It's just another day  
But we'll never be apart

We'll never be apart

You harvest all you lack  
I'm in a paranoid attack  
Shivering inside  
But we'll never be apart

You're juggling your guitar  
Your crowd wants some more  
While they're breaking through my door  
But we'll never be apart

We'll never be apart

My music turns to glass  
I saw every thing collapse  
So I'll think of you  
And we'll never be apart

We'll never be apart
