

## Almost A Memory Now

BlackHawk

She gets her things together  
Puts them by the door  
She says there's no love here anymore  
I'll never be the same if she walks out  
But she's almost a memory

Now  
Wish I could turn her heart around  
I feel so alone and she's not even gone  
She's almost a memory now

She hasn't even left but I know she's gone  
She never even said where we went wrong  
One thing that I know without a doubt  
She's almost a memory

Now  
Wish I could turn her heart around  
I feel so alone and she's not even gone  
She's almost a memory now

I feel so alone and she's not even gone  
She's almost a memory now  
She's almost a memory now  
Wish I could turn her heart around  
She's almost a memory now  
She's almost  
She's almost a memory now
