

## Blaque Out

**Blaque**

I never thought that our love was going  
to be something really special. That you were going to love me how I love you.  
When the love comes and knocks the doors from your heart you called me and now  
my love is you.

[Chorus]

Because I love you I want you I need you my love  
You're really the only thing I'm always thinking of.  
Because I love you I want you I need you my love  
You're truly the one I'm dreaming for and my reason to live.
