

Get Up

Bleu

Get Up
Where were you the other night?
We coulda used you in the fight
Oh and everybody said to say "hi"
We all were wonderin' when you were gonna stop by
I know ya had a little bad luck
But didn't anybody tell you everyone does

Get up
You're just in a slump
Get up
You're stuck in rut
Get up
Before you loose touch
Get up

Don'tcha think you've had enough?
You gotta stop beatin' yourself up
OH I know how much you like to play rough
But if ya don't allow the scabs to heal they scar up
Don't you know I've heard it all before
So don'tcha leave your sad excuses outside my door

Get up
You're just in a slump
Get up
You're stuck in rut
Get up
Before you loose touch
Get up

Can't you see no matter what I do
I just can't seem to get my shit together without you

Get up
You're just in a slump
Get up
You're stuck in rut
Get up
Before you loose touch
Get up
Get up
Get up
Get up
