I remember we used to sit out back and drink until the morning light

Always bummin' smokes and talking trash about the pleasure we h ad

Summers come and gone

And the winter needs a song

And I guess I keep movin' along in a ride that I have in my hea d

Ride that I have in my head

Oh we used to drop some pills and sing til we lose our voice Chasing our dreams, we tried to put em' in a bag and save em' f or another day yeah

Oh I feel, these memories are real Times you can't steal

For the love that I have for my friends Love that I have for my friends

I just can pretend I need you
You ain't no other love I never had
Soon you will find my log
Its a beat that will never stop
Its the loneliest time apart

Love that I have for my friends Love that I have for my friends Love that I have for my friends Love that I have for my friends
