## Wilt

## **Blind Melon**

Hair raising shake you're much too late You should've jumped a couple of cars before Now if I may I'll walk away I'm selling Silly Putty door to door

And up on the shelf it seems to help
If I can keep a little bit of disease
As it's feedin' on me
You see it's bringin' me to my knees

As we all wilt Watching you wilt

Come right away and help me bathe away The filthy feeling, frigid and cold Biting my nails to the fairy tales About the magic monkey's total control

See I got Indian Ken and his fleabag friends With their buckets full of elephant ears As he's breathin' on me
His breath is bringin' me to my knees

As we all wilt Watching you wilt

Pea green the feeling
