

## French Exit

**Bloc Party**

Let's get it straight  
I'm not good with your bicycle  
Stay kinda dry  
Best believe I'd better bounce car  
But I've been told of the other inside  
We were running  
Now I can see the echo running for me  
I wish I could say that I see a bomb  
Matter of fact I was kinda hoping... a bill  
Don't get it twisted  
So this is how we're living

Get back, stay back  
Then get even  
You step on art  
With that beating  
Don't give up on  
They're still breathing  
Get back, stay back  
Get even

You did, yes you did  
You did, yes you did  
Yeah!

Let's get real  
Who's really to blame?  
We through with you  
Never ever again  
When you say bad  
This is the end  
Never get a key  
Never get a chance so  
Dance with your art  
On top of the game  
Don't stop in the dark  
Re-enters your place  
See I got a problem  
I want everyone  
Don't I wanna kidnap for number one

Get back, stay back  
Then get even  
You step on art  
With that beating  
Don't give up on  
They're still breathing  
Get back, stay back  
Get even

Get back, stay back  
Then get even  
You step on art  
With that beating  
Don't give up on  
They're still breathing  
Get back, stay back

Get even

You did, yes you did  
You did, yes you did  
Yeah!
