

Kettling

Bloc Party

We smash the window
Popo don't fuck around
As their cameras take pictures of us
We just laugh
We laugh

Because they can't stop this
We can feel it in our bones
The future's ours, yes it is
We can feel it in our bones

We drop the lighter into the gas
If the whole world is watching us
Let them watch us
Let them watch

They can't stop this
We can feel it in our bones
The future's ours, yes it is
We can feel it in our bones
