## **One More Chance**

Give me one more chance Give me one more chance Give me one more chance to love you Give me one more chance Give me one more chance Give me one more chance to love you

So open the door and calm down Can't you see that I'm trying

Don't say another word about the other boy Can't you see that I'm dying This time things will be different And you're gonna see This time things will be different And you're gonna see, see These hands will come around You'll love their touch again This time things will be different And you're gonna see, see

Give me one more chance Give me one more chance Give me one more chance to love you Give me one more chance Give me one more chance Give me one more chance to love you

So open the door and calm down Can't you see that I'm trying

Don't say another word about the other boy Can't you see that I'm dying This time things will be different And you're gonna see This time things will be different And you're gonna see, see These hands will come around You'll love their touch again This time things will be different And you're gonna see, see

Give me one more chance to love you
