

I Remember

Bloodpit

Oh can I look in the past without
Getting sad I am just afraid of change
There ain't much left of the family
I should hold on to what there is

The only thing I can do something
About is today and tomorrow
I should learn and focus on
Things to come I remember
Those memories will always wet my eyes
But it's there and it stays behind

As long as we keep talking
I'll be same
And as long as we keep growing
We'll be safe

I remember everything

Will you ever read my words to you
Will I ever find a way
In the morning we were all full of life
And now sad and weak

The only thing I can do something
About is today and tomorrow
I should learn and focus on
Things to come I remember
Those memories will always wet my eyes
But it's there and it stays behind

As long as we keep talking
I'll be same
And as long as we keep growing
We'll be safe

I remember everything

And as long as we keep breathing
We'll be safe
And as long as we keep dreaming
We are alive

I remember everything

Save my credit card
Find yourself another one
Always there for me
I threw your love in your face
