

I'm writing from the deepest cave  
Shouting from this humid nest  
Details in death certifications are rare and obscene  
You wouldn't believe what they said about you  
but you cannot defend yourself  
From 5 to 10 it's 9 today and these slow notices kill

Don't see me walk right thru me  
Don't hear me I'll stop shouting  
Wont you pass this tree from the other side  
We don't have to meet

Whales and penguins together in the sea  
A bathtub filled with distilled urine -a bath every morning  
head down -Watch me dive right down  
Don't like the way to greet friends who accuse anonymously  
It's free but sour when ever they pick up their phones to compl  
ain

Don't see me walk right thru me  
Cannot hear a word you say  
Now you've got a problem with it  
For I have to live with it, yeah
